

UNESCO CHAIR Engineering for society

UNIVERSITY
POLITEHNICA
OF BUCHAREST

WHAT IS UNESCO?

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

- UNESCO, the United Nations Educational, Scientific and Cultural Organization, is a Specialized Agency of the United Nations.
- Promotes international corporation and implementation of international agreements.

Main objectives of UNESCO Chair

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

1. Study programs and research for using green energy developing smart transport and solving climate changes challenge.

2. Fostering high-quality and inclusive lifelong learning for all.

3. Empowering learners to be creative and responsible global citizens.

4. Participation to international programs by contributing to advancing education for all (EFA) and shaping the future international education agenda.

FUTURE OF TRANSPORT

MASTER PROGRAMME

Green, Smart and Integrated Transport and Logistics

MINISTRY OF NATIONAL EDUCATION
University POLITEHNICA of Bucharest

Language: English
2 years (4 semesters)
ECTS: 120

No. of allocated places:
30 without tuition fees
20 with tuition fees
2 full scholarships for African students

MASTER PROGRAMME

Green, Smart and Integrated Transport and Logistics

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

MASTER PROGRAMME

Green, Smart and Integrated
Transport and Logistics

CAREER PROSPECTS

- Environmental protection professional
- Sustainable transport specialist
- Smart transport planner
- Pollution engineer
- Environmental Analyst
- Logistics Management
- Logistics Development Specialist
- Transport Operations Manager
- Specialist in intelligent technologies for optimizing and reducing the impact of transport

MASTER PROGRAMME

Green, Smart and Integrated Transport and Logistics

LEARNING OUTCOMES

- Knowledge and skills for **international sustainable transport and logistics**;
- Extensive knowledge on **smart, green and integrated transport solutions as well as logistics**;
- Skills in **software technology, data science, planning methods, operations research, assessment and management**;
- Skills in **research, technology management and leadership**, pre-requisite for career progression in international sustainable transport industry.

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

MASTER PROGRAMME

Green, Smart and Integrated Transport and Logistics

CHARACTERISTICS

- The study program will be carried out in **partnership** with **foreign universities**, in line with **UNESCO's** mission to provide education for **sustainable development**.
- First-hand experience of different European planning and practices on sustainable transport development, delivered by an **international interdisciplinary group of professors** and **lecturers** combined with **professional practice**.

MASTER PROGRAMME

Information Technologies applied in Aviation*

Language: English
2 years (4 semesters)
ECTS: 120

No. of allocated places:
30 without tuition fees
20 with tuition fees
Cross-sectorial master program

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

MASTER PROGRAMME

Information Technologies applied in Aviation*

CAREER PROSPECTS

- Chief IoT
 - Data architect
 - Cybersecurity engineer
 - Environmental Analyst
 - Virtualization engineer
 - Responsible with digital data
- Possible new jobs:
- Data Scientist
 - Airport UX Designer
 - Growth Hacker
 - Mechatronic Engineer
 - Developer

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

MASTER PROGRAMME

Information Technologies applied in Aviation*

LEARNING OUTCOMES

- **Knowledge and skills** in systems engineering and applications dedicated to **aircraft operations, air traffic control and air-ground interaction**;
- Integrated use of **advanced software applications** to solve **complex tasks** predominantly specific to **aviation activities**;
- Using **programming languages** and **software implementation** of data processing algorithms for **aviation processes**;
- Developing **innovative IT products** with aerospace applications in relation to the requirements of international organizations;
- **Skills in research, planning, technology management and leadership**, pre-requisite for career progression.

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

MASTER PROGRAMME

Information Technologies applied in Aviation*

CHARACTERISTICS:

- Carried out in partnership with foreign universities, in line with **UNESCO's mission to provide education for sustainable development**.
- Delivered by an **international interdisciplinary** group of universities and employers: University of Zagreb, Ecole de Mines d'Albi, University of Strasbourg, University of Zilina, University of Lisbon, ICAO, airports, air traffic providers, air companies, handling providers.

United Nations
Educational, Scientific and
Cultural Organization

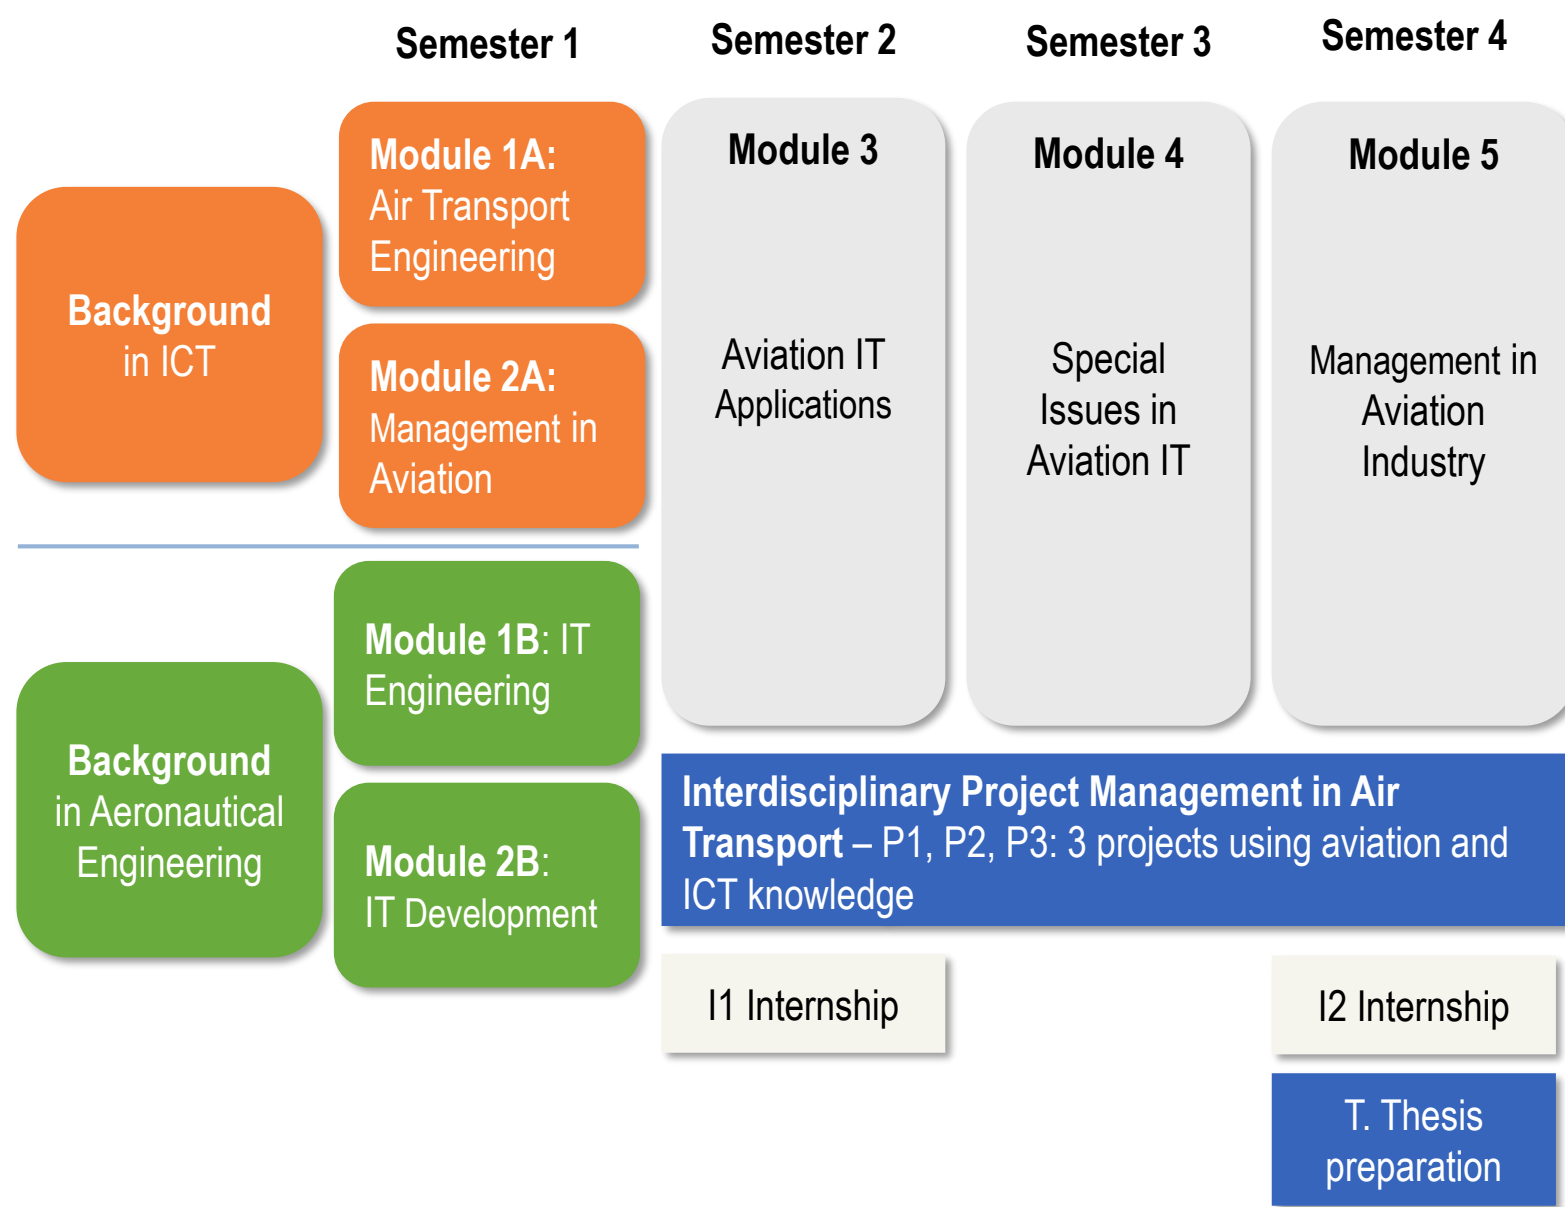

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

What will you learn as a student in this Master program ?

MASTER PROGRAMME

Information Technologies applied
in Aviation*

* The master program is in process of accreditation; expected start date: October 2019

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

MASTER PROGRAMMES

**Green, Smart and Integrated
Transport and Logistics**

**Information Technologies
applied in Aviation***

Master admission

Registration and examination

- 01.07.2019-12.07.2019
- 26.08.2019-13.09.2019

Examination

11-12 July 2019 / 12-13 Sept 2019

Information & Registration

- Web-site: www.upb.ro
www.unesco.chair.upb.ro
- Telephone: +40 214 029 097 / +40 214 029 096
- E-mail: unesco.office@upb.ro

1. Erasmus + project “Knowledge Alliance in Air Transport (KAAT)”, January 2018 – December 2020.’

Website: www.kaat.upb.ro

2. Horizon 2020 project “Perspectives for Aeronautical Research in Europe (PARE)”, October 2017 – September 2020.

Website: www.pareproject.eu

Co-funded by the
Erasmus+ Programme
of the European Union

Knowledge Alliance In Air Transport

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

Objectives of KAAT project

Knowledge Alliance In Air Transport

Co-funded by the
Erasmus+ Programme
of the European Union

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

01. A high-quality workforce by the improvement of level of learning outcomes with relevance for the labor market.

02. Innovative and multidisciplinary approaches to teaching and learning and facilitating the exchange, flow and co-creation of knowledge.

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

Objectives of KAAT project

Knowledge Alliance In Air Transport

Co-funded by the
Erasmus+ Programme
of the European Union

O3. The improvement of transparency and of recognition tools for HE and VET for cohesive and flexible professional pathways

O4. Enhance the international dimension of education and training through cooperation between EU institutions, HEIs, VET providers, employers, international regulatory bodies ICAO and EASA and other stakeholders.

United Nations
Educational, Scientific and
Cultural Organization

UNESCO Chair on Engineering for Society,
University Politehnica of Bucharest,
Romania

Objectives of KAAT project

Knowledge Alliance In Air Transport

Co-funded by the
Erasmus+ Programme
of the European Union

05. systematic dialog between education and business by the creation of a **European network for aviation training and education** with the participation of education and industry stakeholders - **ENATE**

11 Associated partners from France, Romania, Austria, Bulgaria, Moldova

United Nations Educational, Scientific and Cultural Organization

WP 2

Report on Qualifications Analysis in Air Transport Industry

WP 5

Methodology for Sectorial Qualification Framework (SQF)

Workshop “Smart qualification for smart
air transport occupations”
10th of July 2018 Lisbon

PARE

Specific objectives of PARE project

1. To increase the awareness about R&D in the aviation sector.
2. To analyse and compare the relative rate of progress towards the 23 Flightpath 2050 Goals.
3. To prepare a roadmap for each of the 23 Flightpath 2050 Goals.
4. To launch a call on novel ideas to help close the remaining gap and define scenarios for 2025-2050.
5. To develop and provide recommendations for future actions for EU aviation research.
